

Atsedemariam Bizuneh

QA Engineer

Profile

A highly skilled Quality Assurance Engineer with 2 years of experience in designing effective test cases from system requirements and creating automated tests, including unit and performance tests.

I am adept at collaborating with development teams to diagnose and resolve issues and bugs, and I possess strong analytical skills that enable me to plan tests efficiently. Additionally, I have experience of leading QA team and ensuring that all testing activities are completed on time and to the highest standards.
